Analytics and Modeling Module for OrgChart Now Users

Add powerful workforce planning capability to your cloud-based organization charting

You already know that OrgChart Now (OCN) gives data-rich organization charts distributed in the cloud. Now OrgChart Platinum Analytics module accesses the cloud to perform analysis, planning scenarios and detailed reporting. OrgChart Platinum Analytics extends the features of OrgChart Now.
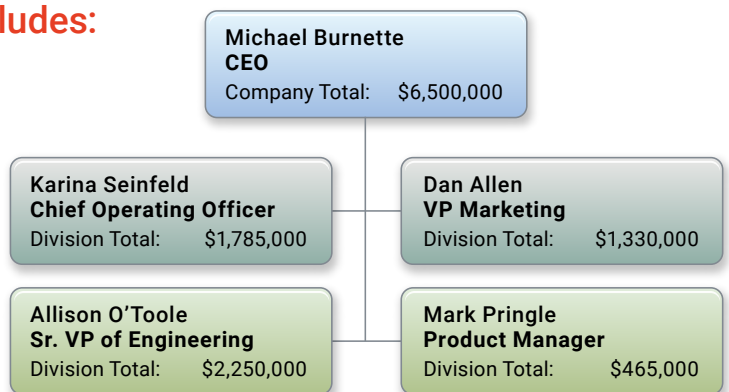

The OrgChart Platinum Analytics module gives you the capability to open charts stored in the OCN cloud environment.

Direct access to HR data in the OrgChart Now cloud

OrgChart Platinum Analytics module includes:

- "What-if" modeling of the organization
- Ability to compare and evaluate the most efficient organizational scenarios
- Rapid report writer for calculation, sorting and grouping of workforce data
- Extensive calculation options for summaries, headcount, span of control and more
- Import of any ADP, Workday, Bamboo HR, People HR, etc., data available in OrgChart Now
- Interactive PDF and PowerPoint wizards for publishing organization charts

Data-rich reporting and "what-if" organization modeling.
